Decide on the Blockchain for Your Research!

You can customize your experience by choosing which Blockchains to operate on. Here's how it works:

• Enter Your Wallet: You can enter your personal wallet for BTC, DOGE, SOL (for example) or other cryptocurrencies. Our software will search for wallets with balances specifically on those selected Blockchains.

• Number of Blockchains: You have the freedom to choose up to 10 different Blockchains. This allows you to have targeted and personalized control.

Automatic or Manual Withdrawal:
- Automatic: If you enter your personal Wallet Addresses on your favorite Blockchains, the Software will automatically search on specific ones.

- Manual: If you do not enter any personal Wallet Address, the Software will explore all 10 available Blockchains, but you will then have to manually select the results you are interested in.

Flexibility and Control: This system gives you maximum flexibility and control over your Wallet searches. Customize your experience according to your needs and preferences!

Thank you for shopping at Trust Mining!
We are happy that you have joined our Community.

We inform you that the activation of the license to access and operate the Software may take up to 24 hours.

You will receive the license via EMAIL, the same one used to make the purchase.
Please also check the spam and/or promotions section.

Congratulations again on your purchase and happy mining!

IMPORTANT!

The Software could be detected as a virus, quite simply because it was programmed externally, and not directly by Microsoft.

The Software is completely safe and clean!

In case of problems, disable the antivirus or allow the opening of the File.

Thank you again for making your purchase. To offer you optimal assistance, we have decided to separate the Telegram contacts of our existing customers from the rest of the Community. This allows us to provide a faster and more effective assistance service, guaranteeing you the best possible support.

For any need or question, we invite you to no longer use the social channels, email or contact form on our site. We prefer to concentrate communication on a single channel to be more efficient.

Please contact us directly via the following Telegram contact:
